

CPI Electron Device Business - Limiter

Passive Pre-TR, TR Limiter suitable for use in high power, high duty cycle applications, with integral attenuator.

With a history of producing high quality products, we can help you with your limiter.

Contact us at ElectronDevices@cpiedb.com or call us at +1 978-922-6000.

FEATURES:

- Frequency range: 9.4 to 9.8 GHz
- Peak power: 6 kW
- Duty cycle: 1%
- Pulswidth: 40 μ Sec max
- Insertion loss: 1.0 dB max
- VSWR: 1.4:1 max
- Flat power: 50 mW max
- Spike power: 500 mW max
- Recovery time: 10 μ Sec max
- 0 - 36 dB variable STC attenuator

BENEFITS:

- Integral variable attenuator
- Wide pulsewidth

APPLICATIONS:

- Specification variations available for various market uses
